

Racconigi, July, 31 2013

To the attention of the Shooters participating in the WORLD MASTER GAMES

It is noted that, being the competition conducted in accordance with the ISSF (International Shooting Sport Federation) and FITAV (Federazione Italiana Tiro a Volo) regulations, as specified in comma number five of the Sport Guide, ALL the shooters are required to use 24 grams lead (0.84 US Oz) ammunition, with the exception of the Universal Range, where 28 grams lead (0.98 US Oz) are allowed.

In the same way, the clays launch schemes will be as provided in the ISSF rules.

In the contrary, the finals will be managed following the FITAV rules (1 complete round). The foreign shooters, will be accredited in the respective level, based on the FITAV method (Circular Letter n° 1 – “Foreign Athletes”).

For more information contact the Racconigi Shooting Range front Desk

On this occasion, I extend to all shooters and guests my Best Wishes.

The Competition Coordinator
Mr. Nicola Martino
